

Invitation

EU Future Talks II

Feel the EU spirit: The EU needs your opinion, ideas and proposals.

Youth exchange: Exchange your experience

On the occasion of the 2024 elections to the European Parliament we want to know about your wishes, needs and demands for the future of Europe.

Come together to spend a nice time and discuss current problems and challenges with young people from EU Member States. Introduce your demands to Members of the European Parliament and internationally networked decision-makers. Bring in your ideas on the following topics:

- **Economic growth and climate protection: conflicting interests**
- **Freedom, Security and Solidarity: together as EU fundamental rights**
- **Global challenges: the role of Europe**
- **Digital transformation & AI: changing times in Europe**

We invite young people from all EU Member States to come to the city of Salzburg. Together we will have workshops, discussions, free time activities, fun and exciting, interesting exchanges.
