Brief history

The YEP programme was launched by the CoR during the 8th European Summit of Regions and Cities in Bucharest in 2019, aiming to provide young local and regional elected politicians a first-hand look into the EU.

The programme has expanded significantly in terms of both size and scope. Now encompassing a network of over 800 young local leaders from both the EU and candidate countries, the YEP programme has become a fundamental component of the CoR.

In 2023, for the first time since its inception, the programme was open to EU candidate countries, allowing young elected politicians from Ukraine, Moldova, Albania, Bosnia and Herzegovina, the Republic of North Macedonia, Montenegro, Serbia and Türkiye to engage in the Union's functioning.

In accordance to the CoR's May 2023 Gender Equality Action Plan, the 2023 YEP cohort was gender balanced (50-50), integrating to the YEP network 156 new YEPs.
