

Invitation

EU Future Talks V

Feel the EU spirit: share your opinions, ideas and proposals.

The future of Europe: get involved

In the face of threats to the EU peace project we invite you to an exchange, where we would like to know your wishes, needs and demands for the future of a peaceful and united Europe. Come together and discuss current problems and challenges with young people from different EU Member States, Austria and selected international countries. Introduce your demands to Members of the European Parliament and internationally networked decision-makers. Bring in your ideas on the following topics:

- **Competitiveness vs Sustainability:** peaceful prosperity
- **Freedom, Security and Solidarity:** shaping a peaceful Europe
- **Europe in a fragmented world:** defining Europe's role
- **Managing AI and Disinformation:** digital peacebuilding

We invite you to come to the city of Salzburg. Together we will have workshops, discussions, fun and exciting, interesting exchanges on the future of Europe.
